	No	0
<b>Overall, I found the 123VC course to be...</b>	Very Helpful	16
	Helpful	0
	All Right	0
	Frustrating	0

### Answers

**If you could modify one thing about 123 VC what would it be, and how would you do it?**

<b>Data Projections</b>	I would perhaps condense some of the activities or lace in some transition activities.
	I enjoyed working with teachers from other sites however not everyone got to do that.
	I would have liked more time to experiment with the introductions of different web resources during class, such as CILC, CAPSpace, and even the content providers' websites.
	I enjoyed everything this week. I would have liked the opportunity to sign up for the different sites during the training.
	I am still confused about how connections work, but I think the more I do it then I might become more confident.
	I am somewhat nervous about using some of the more antiquated equipment from my school.
	More time and group project work, more time between or at the start
	To have a practice session dialing with schools from each campus' actual location. (Their own schools.)
	Video the essence of what we learned and provide us to retain the concepts in long term memory.
	The content is wonderful. The only thing is the long amount of time we spend sitting down. Perhaps integrating more activities where we are required to move around.
Nothing	
<b>El Paso ISD</b>	I wish more people would participate. To get more people to participate we might have to go to PDC or have new teachers learn about this at UTEP or new teacher orientation. More people need to learn about technology.
	I was embarrassed when people were texting while we were on camera. I would ask people to put their phones on mute or try to use them on the breaks.
	Not have lunch so late in the conference (5 hours into it is too long to wait).
	Overall it went smoothly.
	Not at the moment...
<b>Fort Bend ISD</b>	If we could have more days to learn about it.
	MORE TIME TO COLLABORATE WITH OTHER SITES

**Please describe the most valuable experience you feel that you had while participating in the 123VC course.**

<b>Data Projections</b>	I really enjoyed the collaborative project.
	Moving to and completing the application process through creating a project.
	I feel very proficient with Google Docs and Skype, and those two applications are very useful in my job.
	Practicing everything we learned. This was critical. I feel confident about using most of the tools demonstrated.
	Thanks so much!

## 123VC Evaluation Report - 2012

	All content was valuable. I felt I needed more time to digest. Thanks for the October follow-up.
	There were so many exceptional activities and topics. I can't choose any one.
	Distant videoconferencing with other educators.
	ASK exercise, interviewing experts, setting up a videoconference.
	There are too many to name, but overall I loved the fact that we had many opportunities for hands-on experience which is a valuable learning tool.
	getting the opportunity to work with others
<b>El Paso ISD</b>	I learned to use the computer in class. I liked to work with the other teachers. I liked the presentations and the MysteryQuest. I liked the immediate feedback of the debates on the border topics. I liked the Mariner Museum facts and interaction. I mostly enjoyed the book The Wall and listening to the Veterans. Now I appreciate them more. I liked the gross science.
	Interacting with the content providers.
	Being able to connect with the content providers was a great "sampling" to know what to expect!
<b>Fort Bend ISD</b>	Learning about videoconferencing.
	Talking to the other sites.

**Please share anything else you would like. We value your feedback!**

<b>Data Projections</b>	Great workshop!
	Lunches were great and thanks for the scholarship.
	THANK YOU!
	I enjoyed the entire training. Thanks!
	Both presenters were knowledgeable, supportive and patient with persons unaware of some of the technology used in the session.
	You were so kind and patient. Thanks. It might be a good idea to not jump in so quickly when -----interrupt----- maybe you needed to more than us work or discuss. PERFECT
	It was a great opportunity to use this professional development.
	Both of you were supportive and reassuring.
	This training was very interesting and I am excited to use videoconferencing in my classroom this upcoming school year!
	Fantastic!
<b>El Paso ISD</b>	I want to keep learning about computers. I liked the information and hope I can use the technology and videoconference. I liked the use of technology. I hope to see this workshop perhaps on a Saturday to connect with other teachers. I liked the fact that we can do videoconferencing with the teachers of our group. Thank you so much for all your help.
	N/A
	I liked that we had a schedule and it was very organized to get a lot of valuable information in a short amount of time.
	Jazz videoconferencing met my expectations and prepared me to go in the classroom and begin implementing conferences with other people. I would like to continue attending more conferences and be able to learn more and more and more. Great Job... thanks so much. Jose Jeddery, Mitzi Bond. Go Eagles.
<b>Fort Bend ISD</b>	Our trainers Ms. Dana Fish and Ms. Lisa. They are good instructors.
	We should get all teachers on board with this.
