123VC Evaluation Report - 2015

Overall, I found the 123VC Jazz workshop to be...	Very Helpful	26
	Helpful	2
	All Right	0
	Frustrating	0
If you could modify one thing about 123VC Jazz what would it be, and how would you do it?		
Alief ISD	I think some time could have been used differently to cut it down to 3 full days instead of 4.	
	N/A	
	I would use more lists. Saying what was asked of me was repetitive and made me tune out frequently. Some kind of agenda on the whiteboard of what was expected would focus many people's attention.	
	Have morning things to do list on board or on computer. Receiving verbal instructions while trying to work was frustrating.	
	Possibly letting us pick our own groups.	
	Modeling the instructions or having visuals to remind us of the oral directions for sure.	
	Although it was over a span of 4 days, for those who are technically inclined it was still very fast paced. I would plan for things to move a tad bit slower.	
	I thought the pacing of the workshop was fine. I liked that we got to work with the equipment and do the projects.	
	I would have the guest speakers present before lunch and not after lunch.	
	N/A	
	None	
	I don't think I would change anything at the moment. It was very well set up.	
	More time for beach quest! It was awesome but rushed.	
	Provide a little more time.	
	More time to plan for our commercial though I feel everyone's project turned out very well in the end.	
	More brain breaks and actively moving around. Way too much sitting in front of a computer for a non-cubicle job (lol). Just add more opportunities to do something physical on our own sites.	
	More time.	
	The length of the workshop - maybe extending the hours each day and have a 3 - day workshop instead of four.	
	Nothing at this time!	
	No suggestions. I enjoyed the entire agenda.	
Maybe a little more time.		
I would have more members in the small groups.		
More video conferencing with guest speakers.		
CNYRIC	I would have liked to be paired with someone closer to my grade level.	
	Ken & Amy ... WONDERFUL job! Thank you for all of the hard work you did putting this workshop together.	
	Amy... Looking forward to continuing working with you.	
	Update the ASK video.	
	I would dedicate a few minutes to introduce how to use the video conferencing equipment.	
	Use technology pieces that I have at my school.	

123VC Evaluation Report - 2015

Please describe the most valuable experience you feel that you had while participating in the 123VC Jazz workshop.	
Alief ISD	Modeling the activities.
	The most valuable experience that I have had was that I was able to use different ways to connect with my small group.
	The jobs helped a lot. I think it made people more comfortable with technology that were not initially.
	Hands on experience and collaboration.
	All of the links on the wiki will be great for when school starts. It will be very easy to review all of the resources.
	the different modules each day helped me to understand how much more there could be to videoconferencing!
	The most valuable experience I had while attending the conference was being able to place myself in the role of a student and create projects working with people from other places.
	Talking to Dennis was powerful.
	The time we were given to explore the different websites and tools while having experts next to me to guide was the most valuable part of this experience. I felt comfortable to get out of my comfort zone because I knew that if I messed something up, I was going to get immediate feedback and help.
	The most valuable experience is to be with other professionals and sharing ideas.
	I became very familiar with vc.
	Both the Google Drive as well as lifeforce123. They are amazing apps to use.
	Website resources and hands on time.
	Interacting with teachers from a different state and seeing how video conferencing can work with several subjects and grade levels.
	Interacting with educators from other grade levels and campuses.
	Actively connecting with the other site and seeing how we can still be productive.
	Getting to see and speak with people so far away.
	Working with the teachers from Syracuse was a very pleasant experience.
	I feel the collaboration among everyone willing to share their knowledge and a positive attitude toward learning new information.
	The most valuable experience was having the opportunity to plan and prepare an actual videoconference. Also, I enjoyed actually preparing and sharing the daily projects. Great "hands-on" opportunity.
All the tech connections and resources.	
The exposure to the equipment, the resources and all the help I have in the future.	
Understanding the powerful learning that can happen without ever leaving your classroom.	
CNYRIC	Making the connections and gaining resources!
	<ul style="list-style-type: none"> - Introducing coworkers to just how they can use video conferencing in their classrooms. - Learning about new sites to go to for video conferencing projects. - Getting the hands on experience with our morning video conferences we did as examples to possibly use in our schools.
	This might sound odd, but I liked the challenge of using different systems to connect with Alief. I need to do things over and over again in order to feel comfortable. It was the same with using google drive, pbworks, etc.
	The modeling of the different ways that video conferencing can be used in the classroom.
	The fact that I now know I can do this!

Please share anything else you would like. We value your feedback!		
Alief ISD	Excellent	
	Thank you so much for all of the hard work and time put into this workshop.	
	Great job.	
	I enjoyed the week even though it put me out of my comfort zone a few times.	
	Thank you for the resources, the guidance, and the opportunity to work with another site!	
	Everything was great, including the food.	
	Great job. Thank you!!!	
	I love the hands on experience. I learn by doing, and I can honestly say I have learned a lot in these 4 days.	
	Want more.	
	I can't think of any thing at this time.	
	Microphone	
	Nothing!	
	This was an awesome learning experience!	
	The collection of information/resources in the binder are invaluable and what's better is that we actually went through the materials. Too many times workshops or training facilitators will give you a packet of stuff and rely on you to go through it later on; if you have questions, it's up to you to find them!	
	Thank you for everything! It was great.	
	Thank you, I learned so much. I can't wait to use them.	
	CNYRIC	Please continue to support the district in this initiative and bring it back every year so more teachers can participate.
		I like everything that I have learned.
I have learned so much more, not just from the presenters but from my peers as well. Great conference!		
I hope to see you all soon to share successes and projects.		
Loved this PD.		
Being able to participate the last two days from home via VC...priceless.		
This was a phenomenal conference. The best that I have ever attended!		
I greatly appreciate the hospitality that the CNYRIC site displayed. That only enhanced the excellent learning I experienced. It was truly awesome.		
I can't wait to try this myself (with support)!		
The pre-workshop materials did not open for viewing.
